INDUSTRIALTRACE

Industrial Water & Wastewater Intelligence

PENNSYLVANIA / EARLIER PILOT SAMPLE / NOVEMBER 24, 2026

Follow funding. Check procurement. Prioritize relevant projects.

Three funded projects. Three different stages.

A supplier-focused snapshot of public project records, with purchasing-stage caveats and suggested next checks.

01 / BEAR VALLEY JOINT AUTHORITY — $22.25M

TENDER REPORTED / VERIFY DEADLINE

Membrane filtration skid, finished-water pumping and booster station upgrades. Two bid aggregators report conflicting deadlines of December 2 and 3, 2026. Check the official notice and addenda before pursuing.

Official environmental assessment

Tender listing (secondary)

02 / BUCKINGHAM TOWNSHIP — $3.12M

FUNDED / PROCUREMENT NOT VERIFIED

Anion-exchange treatment, vessels, process valves and booster pump. The township confirmed funding on October 22. Check the procurement schedule and whether equipment has already been specified or purchased.

Township announcement

03 / LAKELAND SCHOOL DISTRICT — $352K

HISTORICAL BID / DO NOT TREAT AS OPEN

PFAS treatment equipment at the junior-senior high school. A bid notice listed May 6, 2026, months before the October funding award. Check award and subcontract status before outreach.

District bid records

Historical bid listing

NORTHEAST 50 / MAJOR PROJECTS / CURRENT PRODUCT

This earlier sample illustrates our method; smaller examples are not part of the $5M+ report.
